Oahu College has seventy-seven students, and the Punahou Preparatory has 142, the largest number at the opening of the year which the school has ever had.

A Washington dispatch of the San Francisco Examiner says that the U. S. S. Pensacola has been ordered down here because trouble was expected after the death of the Prince Consort.

The smaller of the two large new pumps at Ewa Plantation will be finished and at work, it is hoped, next Tuesday. Planting will then proceed at once. About 270 acres of the crop of '93 are already planted.

The old fashioned Tagliabue tester still in use here in Honolulu for testing kerosene oil is hopelessly out of date. The Minister of Finance has under consideration the advisability of introducing the electric tester.

The money, consisting of specimens of old coins, which was found buried back of N. S. Sachs' store, was put there by Barefooted Bill, and he got it from Mr. Sachs' store. He could not use the old coin, and only kept the new.

There was quite a heavy thunderstorm, Tuesday morning, about 4 o'clock, though no rain fell in town. It must have rained in the valleys, however, for at 6 o'clock in the morning the Nuanu stream was higher than in many months.

The September Chantiquan contains an article on "The Hawaiians," which is good funny-reading. The facts, such as they were, were probably taken from Bingham's history or something older. The chief matter of the article consists in insane fancies of the writer.

Three natives, Pubio, Paunki and Kema, were arrested Friday afternoon for indulging in the nefarious game called che fa. A lawyer was hawking the Police Station last night to bail the sinners out, but the Marshal and his deputy had mysteriously disappeared.

A party of about a dozen gentlemen, among them John D. Spreckels, His Ex. Saml. Parker, W. W. Goodale and Mr. Stetson, of San Francisco, went down to the Ewa Plantation on Friday. The company went in a special car under the guidance of Mr. Ed. Tenney, and a thoroughly good time was had all around.

As the men of the Kinau were lowering on Wednesday afternoon the two heavy spars used as a crane for hoisting the new boilers on board the steamer, the spar came down with such force that quite a rent was made in the wharf. The mishap was in no way due to mismanagement on the part of the steamer's officers. Nobody was hurt.

LOCAL AND GENERAL.

There have been good rains on Maui as well as Kauai.

The Nuanu road for some distance above Judd street needs overhauling, badly.

Sells Bros' great circus, which is now giving a series of exhibitions in San Francisco, will probably pass Honolulu on the next Mariposa out its way to Australia.

The thunderstorm which passed over the north end of Oahu on Friday morning was reported on Kauai also, about the same time, causing freshets in many of the streams.

Dr. Trousseau's ostrich farm is getting too big for its present locality, and the doctor is looking for a good place to move it. There are now about thirty young birds—doing well.

Tuesday was a busy day at the Post Office. The mail received by the Australia comprised 6636 letters and 3362 papers. The island mail made up and despatched the same day included 5391 letters and 4255 papers.

It will be finished in a week or two and taken down to Pearl Harbor. It is not intended for racing purposes and is not named after any one in Dr. McGrew's family.

There is one cantoneer on the Nuanu road above the electric works who is constantly busy—and keeps his section of road in admirable order. He misapprehends the purpose of the cantoneer law entirely, and seems to think its object is road-making instead of the creation of a corps of political loafers and hangers-on.

Excursion to Pearl City Peninsula.

A large number of people, enough to fill four cars, took advantage of the opportunity offered to go down on the railroad last Saturday afternoon. Some went on to the plantation but many got off at the peninsula to see the lots now advertised for sale. Those who only know the peninsula as it was two years ago would not recognize the place now. It is cleared and laid out into streets and lots, and the water will soon be laid on it. The party expressed themselves as surprised and delighted with what they saw. The company has acquired a fishing right in connection with the property so that those who buy lots will have the privilege of fishing.

KAUAI NOTES.

Burglars Abroad—Rains Cheer the Planters.

The Plantation store, at Kealia, was broken into Friday night, 11th inst. The burglar got in by a window, having broken a glass, and while reaching in to open the window must have cut his hand severely, as the window was smeared with blood, as well as goods, drawers, etc., throughout the store wherever he touched anything. It ought to have been a good clue to finding the robber. He is still at large. Two gold and several silver watches were taken, with several other articles of merchandise and a few dollars in change. The till was tampered with, but owing to the bell ringing he desisted from his efforts to open it as the rooms overhead were occupied.

Plantation men are rejoicing over the end of the drought for the present. Nearly every day for a week or two rains have fallen over the greater part of the island. Cane had begun to look quite yellow; pastures were dried up so that cattle were dying for want of both food and water. The rains have washed away a scow or two crossing the rivers, but no serious damage was done.

The plantations are visited almost with monthly regularity by Japs whose contracts have expired and who have mastered the gambling profession sufficiently to fleece their innocent brethren who are not so well versed, and whose hard earned monthly wages tempt the former. United efforts should be made to put the gamblers either out of the country or where they cannot carry on their nefarious work.

Some nights ago the house of a Jap was entered, at Kupaa, by masked robbers, who caught and held the sleeping Jap while a search was made of his premises. His hoard escaped the search, having been hid in his bed.

The Government School at Anahola was closed for a week, and the young school-agent pro tem. was wondering both how to fill the vacancy and whether marriage is a failure.

THE SORCERER.

To be Produced at the Opera House—The Plot.

Mr. L. J. Levey announces in another column the production (under the direction of Mrs. Ernestine Gray), of Gilbert & Sullivan's opera, The Sorcerer, at the Opera House on Saturday evening next. Following is a synopsis of the piece:

Alexis, son of Sir Marmaduke Poindeux is betrothed to Alene, daughter of Lady Sangzure. They are so happy in their engagement that they wish every one to share the same feelings and Alexis calls in Wellington Wells, a family sorcerer, who by calling to his aid the "friends of flame and fire" succeeds in putting a love potion in the teapot, from which all the villagers drink. This potion causes every one who drinks of it to fall in love with the first person they meet and their affection is at once returned. Thereupon ensue a number of complications. Amongst others, Constance, a society girl, who has been in love with Dr. Daly, the village vicar, meets the village notary, a very old man, and transfers her affections to him. Sir Marmaduke instead of keeping to his old love Lady Sangzure bestows his affections on Mrs. Farley, the church pew opener, and mother of Constance. Lady Sangzure does the same to Wellington Wells, much to his distress, and Alene herself having drunk the philtre to please Alexis, who wishes to make sure of her love, meets and as a matter of course loves Dr. Daly. Alexis coming in is enraged at hearing it and denounces Alene, whom Mr. Wells appears, and in order to rectify matters, when all are restored to their old loves.

An Interesting Meeting.

Quite a large number of members of the Y. M. C. A. were present at its monthly meeting held on Thursday evening. Vice-President C. L. Carter presided. The recording secretary, the treasurer and chairman of various standing committees gave very interesting reports. The treasurer's report showed monthly receipts of \$293.21, and disbursements of \$29.16, leaving a cash balance of \$264.05. The meeting decided to add to its already large number of illustrated papers and magazines for the reading room—Canadian, Australian and English newspapers. It was voted that the third Monday in each month be devoted to a series of practical talks. His Excellency Jno. L. Stevens, United States Minister Plenipotentiary will deliver the first lecture on October 16. His subject will be announced later. Judge A. S. Hartwell and Prof. A. B. Lyons will give their practical talks on November 16 and December 21, respectively. Thirteen new members were added to the roll. A collection of \$4.00 was taken up, and then the meeting adjourned.

The Cousins' Society.

The Hawaiian Mission Children's Society held its regular monthly meeting at the residence of Rev. Dr. Beckwith on Saturday evening, which was fairly attended. The social events of the evening were a piano solo by Miss Lottie Parmelee and a vocal solo by Dr. Nichols. They were beautifully rendered. Mrs. G. P. Andrews read a well-written paper on, "A watering place in Honolulu." Mr. W. A. Bowen next read an interesting paper on "The first Bible in the South Sea Islands language." and "The Nicaragua Canal." At the conclusion of Mr. Bowen's paper, a business meeting was held, and then the meeting adjourned.

ST. LOUIS VS. IWILEI.

The "Amateur Base Ball Association" is certainly well named, for if ever an amateur game was played it was on Saturday by the St. Louis and the Iwileis. The game from beginning to end was a mass of errors, and there was only one earned run in the whole twenty-two runs scored.

Neither club got any runs in the first innings, but in the second Kipa made a base hit to right, and came home on wild throws and a passed ball by C. Long.

The St. Louis' half of the second was opened by a base hit to right by Lewis, after which hits by Long, Kaouli and Gomes, and a three bagger by R. Lane, assisted by errors by the Iwileis, scored six runs for the lucky St. Louis. After this innings the Iwileis picked up a little until the seventh, when they allowed the St. Louis to make six runs, which virtually won the game. The Iwileis made quite a struggle to catch up in the ninth, but could only get three runs, and the game went to the St. Louis with a score of 14 to 8. The game was not largely attended. The following is the official score:

Exhibition at Kawaiahaeo.

The stereopticon exhibition given by Ben Hogan at Kawaiahaeo church Saturday night drew out a big audience, and a very appreciative one. All the good seats were filled up stairs and down and a great many stood. About two hundred views were shown. An entertainment of this kind is precisely suited to the Hawaiians, and a goodly number of the views were saluted with enthusiastic cheers. The comic pictures elicited especially warm approbation. Mr. Hogan's explanatory remarks were translated by W. R. Castle. After the main exhibition was over Mr. Hogan announced that he would go on as long as the supply of gas lasted. Everyone stayed, and a large number of Hawaiian views were shown. Many of these were indistinct, but some came out very clearly. The audience were highly edified by the Hawaiian views, a well-known portrait of a Hawaiian girl in particular being greeted with a storm of applause. As each picture was flashed on the screen voices from all parts of the house called out the name of the familiar locality.

Tuesday Evening's Concert.

The organ recital to be given at Kaunakapili Church on Tuesday evening, the 22d inst., promises to be a very successful affair. There has been little in the way of entertainment of late, and the recital will be hailed with pleasure. On this occasion, Miss Louise Dale, the new music teacher at Oahu College, will make her first appearance before a Honolulu public. Miss Dale is a graduate of the New England Conservatory, and possesses a very fine soprano voice. It is always a pleasure to hear the Hon. Paul R. Isenberg, and he will give one of his favorite songs at the recital. One number will be a Meditation in E minor for piano, Miss Parmelee, violin, Mr. N. J. Costello, viola, Hon. A. Marques, violoncello, Wray Taylor. The organ selections will be five in number, including a fantasia arranged from Trovatore, Faust, Stradella, Tannhauser, etc. The admission will be 25 cents, and tickets are now for sale at Mr. A. L. Smith's store, Fort street.

Mr. Thomas Baffie, Editor of The Graphic, Texarkana, Arkansas, has found what he believes to be the best remedy in existence for the flux. His experience is well worth remembering. He says: "Last summer I had a very severe attack of flux. I tried almost every known remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me. I purchased a bottle and received almost immediate relief. I continued to use the medicine and was entirely cured. I take pleasure in recommending this remedy to any person suffering with such a disease, as in my opinion it is the best medicine in existence." 25 and 50 cent bottles for sale by all Dealers.
